About Us

Indotech Organics manufactures specialty products to serve wide spectrum of industries like fertilizer, rubber, paper, sugar, distillery, automobile, engineering, chemical and agro-processing industries. It commands very high reputation among all stakeholders including customers & suppliers. Our strong Research & Development approach complemented with knowledge base, transparent ethical business philosophy, fair business practices have a great contribution to our continuous business growth. **Indotech Organics** has researched, developed, manufactured and marketed several industrial products to meet the unique needs of a specific market or as a “problem solving” solution for our customers.

Vision

“To develop sustainable business practices in our products & services both profitably & responsibly by optimally utilizing the natural resources and conserving them to benefit future generations through sustainable growth.”

Mission

To provide viable solutions for our customer’s problems through sound scientific research, precise and efficient manufacturing and a strong commitment to offer support & service in timely and cost-effective manner.

Our Philosophy

Sustainable business is built on trust. It is our policy to provide most cost effective solutions to all our customers. We ensure maximum returns to our customers when they invest in our product.

- ▶ Increase the profitability of our customer by reducing input cost through our cost effective quality products and making processes simpler.
- ▶ Share the extra profit so earned through our products and services on equitable basis.
- ▶ Customer should always win and earn more in all dealings with us.

Core Values

Integrity cannot be bought or sold, it must be earned. We will not compromise on it for short term gain or advantage. We will stand tall in front of our associates and customers and never look the other way. Mishaps & problems will not alter our course; we will look at them as an opportunity for growth as individuals & as a company.

Environment

Mother earth is fragile and must be handled gently, so we must be good stewards of our environment. Earth’s resources are finite and we will give back through recycling & green technology whenever & wherever possible. BSK group believes it to be less expensive to develop safe chemistry today rather than clean up bad chemistry tomorrow.

INDOTECH 256

QUAT BASED SURFACE CLEANER

Indotech 256 is a specially formulated concentrated Quat Disinfectant, Cleaner and deodorizer. This product disinfects, cleans and deodorizes in one labor saving step. Quaternary Ammonium Compounds are proven antimicrobial agents and show optimal effectiveness against a broad spectrum of bacteria and enveloped viruses like SARS COV 2 and helps prevent spread after application at recommended use concentration.

Features and Benefits:

- Highly concentrated formulation based on quaternary compound provides excellent one-step cleaning, disinfection and deodorization.
- Non-corrosive to metals. Non acidic, non caustic.
- Broad-spectrum disinfectant, bactericide, fungicide and virucide.
- Does not stain.
- It is highly stable providing long-lasting effect.
- Disinfectant remains active on the surface for a longer time. It doesn't evaporate like alcohol or chlorine.

Directions for Use:

Dilute the product in the ratio 1:250 (4 ml of product per liter of water). Gently mop the surface. No need to rinse.

INDOTECH™

Premium Hand Sanitizer

Made from Extra Neutral Alcohol

PROFESSIONAL HANDWASH

Product Description:

Professional hand wash from Indotech Organics is a quick, economical and practical way of hand cleaning in factory sites, hospitals, hotels and at home. It is specially formulated to dissolve oil, grease and dirt fast and easy, leaving the skin clean and soft, due to its contents of natural solvents. It's a refill pack to work with any soap dispenser.

Product Handling:

- ▶ It is ready to use. No dilution required.
- ▶ Pour a small quantity directly onto wet hands, massage into a rich lather and wash with water.

SODIUM HYPOCHLORITE Liquid Bleach

Product Description:

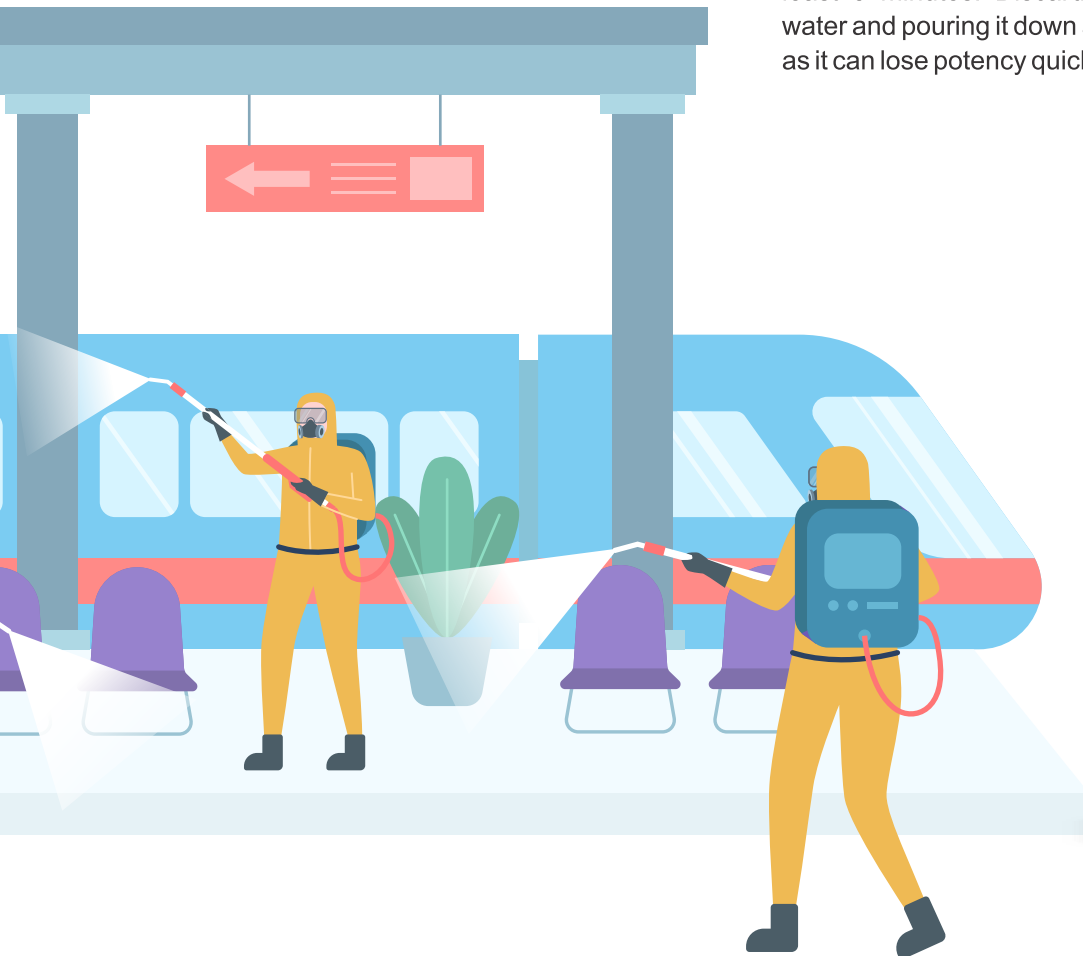

Sodium Hypochlorite (5%) is designed to sanitize/disinfect a variety of surfaces killing 99.9% of germs. The Centers for Diseases Control and Prevention (CDC) and the World Health Organization recommends using a bleach solution to disinfect areas contaminated with the novel coronavirus.

Product Application:

This cleaning solution will disinfect surfaces from more than just the novel coronavirus. Disinfecting regularly can help prevent the flu, food born illness, and more which can in turn help decrease other infections.

Product Handling:

Wearing gloves, carefully prepare 2% solution i.e. 20 ml Sodium Hypochlorite in 1 liter soft water. Wearing gloves, apply the solution to surfaces that need to be disinfected. To properly disinfect, the solution needs to be in contact with the surface for at least 5 minutes. Discard the solution by adding water and pouring it down a sink drain after 24 hours as it can lose potency quickly.
